

Help Reduce Water Damage and Keep Your Building Up & Running

Great American provides peace of mind when you have a loss — now we can help you avoid losses before they happen.

Picture coming into your apartment building to find a pipe **burst** has caused water damage to some of the units — leaving you with a messy **cleanup**, repair bills and upset tenants.

Now imagine you had received a text or email **alert** telling you there was an issue before significant damage occurred.

Great American is working with HSB Connected Technologies to make this a reality by providing you with a valuable **early warning system** that uses the latest **IoT technology** to detect water and watch for frozen pipe situations.

How the IoT Solution Works

To learn how IoT can work for your apartment or condo building, talk to your Great American agent today.
